# ABOUT TRAINEESHIPS

**Trainees** not only offer a cost-effective approach to building your staff base, they provide the opportunity to train a new staff member from the ground up, understanding the different processes, policies and procedures that make your business unique.

With the *work and learn* approach of traineeships, you have the ability to really work with your trainee to grow and develop into future roles within your organisation.

Our On-Hire model will provide a Trainee to you on a fulltime basis. You will be charged under the appropriate award with rates starting from as little as **\$16/hr (for a Year 10 School Leaver)**.

Our weekly rates are inclusive of the hourly rate of pay, all training costs, superannuation contributions, worker's compensation, payroll tax, public indemnity insurances and all administration costs. **There are no hidden or unexpected costs along the way!**

We take care of all the training costs and arrangements, partnering with a local Registered Training Organisation to complete the Business Qualification. Our trainers are dedicated, local trainers who will arrange site visits according to you and your trainee's needs.

*We take care of all the training aspect.*

**Call us to learn more! 02 4934 9900**

## QUALITY CANDIDATES TO HELP BUILD YOUR BUSINESS.

*A traineeship is an excellent staff engagement strategy for any small to large business while supporting a young persons career path.*
